DEDICATION

To Succeed

To laugh often and much;
To win respect of intelligent people
and the affection of children;
To earn the appreciation of honest
critics . . .
To appreciate beauty and to find
it in others,
To leave the world a bit better . . .
To know even one life has breathed
easier because you have lived;
This is to have succeeded.

Ralph Waldo Emerson

We, the Class of 1982 dedicate this yearbook to Mr. Donald Flebotte, an eminent figure to each who has experienced his dynamic teaching technique and acquired his priceless friendship. The greatest teacher does not stop at the mere teaching of a subject — he inspires his students to love what he is doing, because *he* loves what he is doing. Mr. Flebotte not only teaches psychology and sociology, but he teaches us about ourselves as well. He has an uncanny understanding of our daily struggles with rules, peers, values, and parents. With his humor and charm he makes us laugh at our foibles.

In the past, Mr. Flebotte has served other school districts as principal and assistant principal. He has also worked as a Secondary School Specialist for the Division of Youth Services in Massachusetts. In 1972, he joined the faculty of Enrico Fermi. That year our school was granted an invaluable gift; Mr. Flebotte himself.

The *irresistible* Mr. Flebotte is involved in a number of activities for the students of our school. He efficiently manages the senior yearly fund raiser; the magazine drive. The success of this drive can be attributed to his continual assistance and encouragement. In addition, he acts as the chairman for the graduation procession. For these services and this unselfish devotion time, we thank-you.

Upon graduation the class of 1982 acknowledges you with respect and admiration. Your influence upon us will prove that you have succeeded!

**The direction in which education
starts a man will determine his future.**
Plato

Fermi High School provides the groundwork for its students to choose their path; their road of life. In 1979 Fermi's sophomores came from two junior high schools. As two roads that are destined to intersect, this student body quickly merged to form a united class. In order for the many barriers to be broken it was necessary for each student to do some yielding. The result was a strong, unified class who marched steadily down the same road toward a common end; graduation.

During its three year stay at Fermi the class of 1982 continually prepared for the future. Fermi not only offered unparalleled facilities and accommodation for this preparation, but it also offered something more. Individually students were carefully given guidance and direction by devoted teachers, counselors, and administrators. Each student was encouraged to set goals and to aspire to attain them. Each was prompted to continually reach for his final destination.

DECISIONSDECISIONSDECISIONS

If one advances confidently in the direction of his dreams, and endeavors to live the life which he has imagined, he will meet with a success unexpected in common hours.

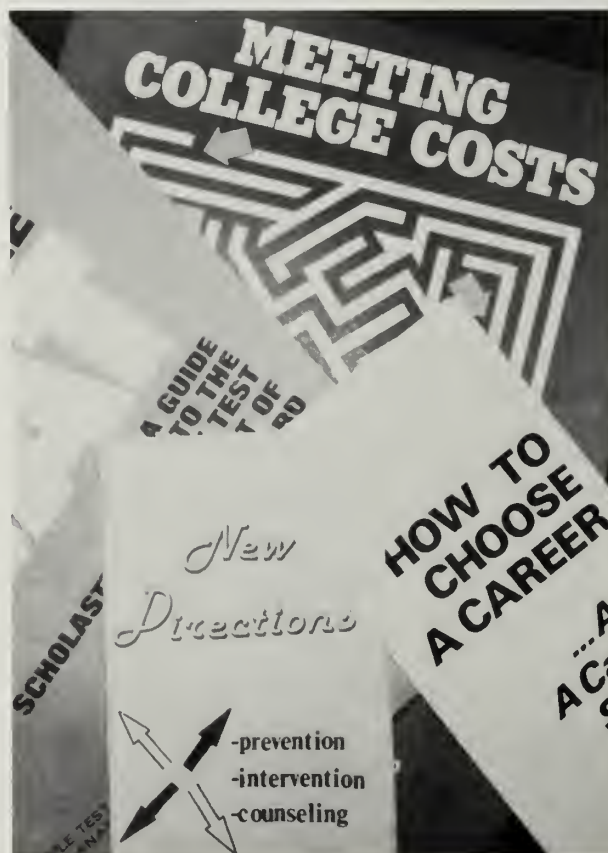

Henry David Thoreau

Graduation for the class of 1982 is not an end to a road, but a hurdle conquered along the road of life. The decisions made at the time prior to graduation will effect how far along this road each will progress. Fermi's strong academic program coupled with its facilities and extra curricular opportunities has served to prepare each student to proceed along this road. Some students will enter the work force immediately and others will choose to further their education. In either case, Fermi's students can be confident they have the essential background to become successful and well-rounded individuals, ready to enter society along that road which is unique only to them.

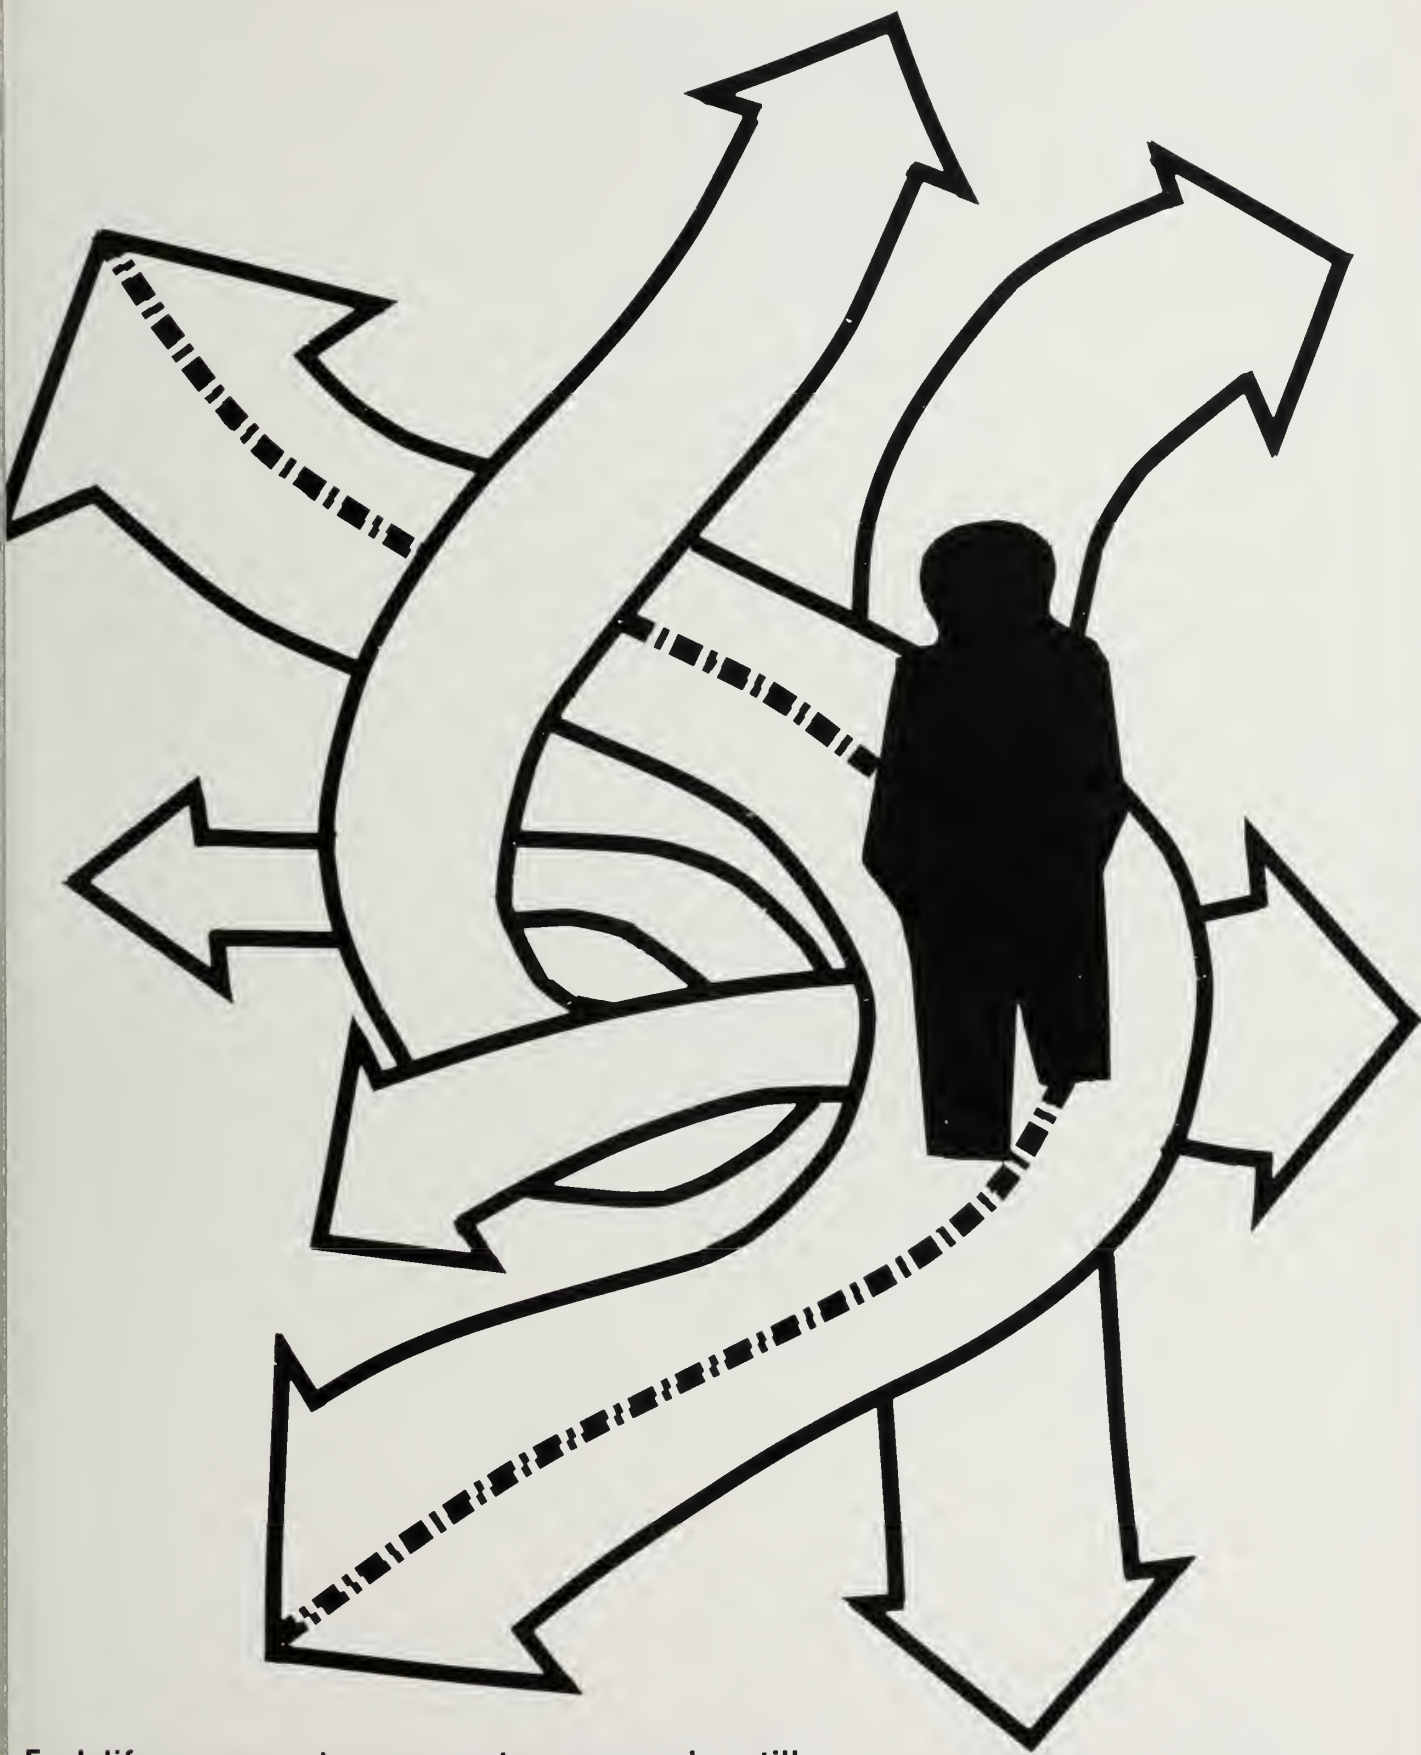

The class of 1982 is ready to pursue its dreams, reach its goals and arrive at its destinations. Ahead lies the most difficult bend in the road. The directions have been set. It is now up to the individual to use his intuition acquired through his experiences at Fermi to guide him.

The road will not always be a smooth one. Therefore, each individual must have faith in his decisions; faith in his goals; and faith in choosing the right path in his life.

Emily Dickinson

THE ROAD NOT TAKEN

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that, the passing there
Had worn them really about the same,

And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way,
I doubted if I should ever come back.

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I —
I took the one less traveled by,
And that has made all the difference.

Robert Frost

"Tomorrow is a dream
that leads me onward,

Tomorrow is a path
I've yet to choose

It's a chance I've yet to take,
a friend I've yet to make.

It's all the talent
I've yet to use.

Tomorrow is a dream
that leads me onward,

Always just a step
ahead of me.

It's the joy I've yet to know,
the love I've yet to show,
for it's the person
I've yet to be."

IN REMEMBRANCE OF ...

**He has taken his bright candle and is gone
Into another room I cannot find
But anyone can tell where he has been
By all the little lights he leaves behind.**

Mr. Paul Adeletti was a science teacher in the Enfield Public School System until the time of his death on April 21, 1981. The first five years of his Enfield teaching experience were spent at John F. Kennedy Junior High School, and then from September of 1977 until his death, he was a part of the Fermi High School Faculty. He taught various courses within the science department, including Biology, Anatomy, Physiology, and Practical Science.

Paul Adeletti, through his kindness and gentleness, enlightened his students during the years he taught science in Enfield. He was an effective and dedicated teacher. His students knew that he cared about them as individuals. He would listen to their problems. They, in turn, would listen to him, for they knew he possessed outstanding knowledge in the field of science.

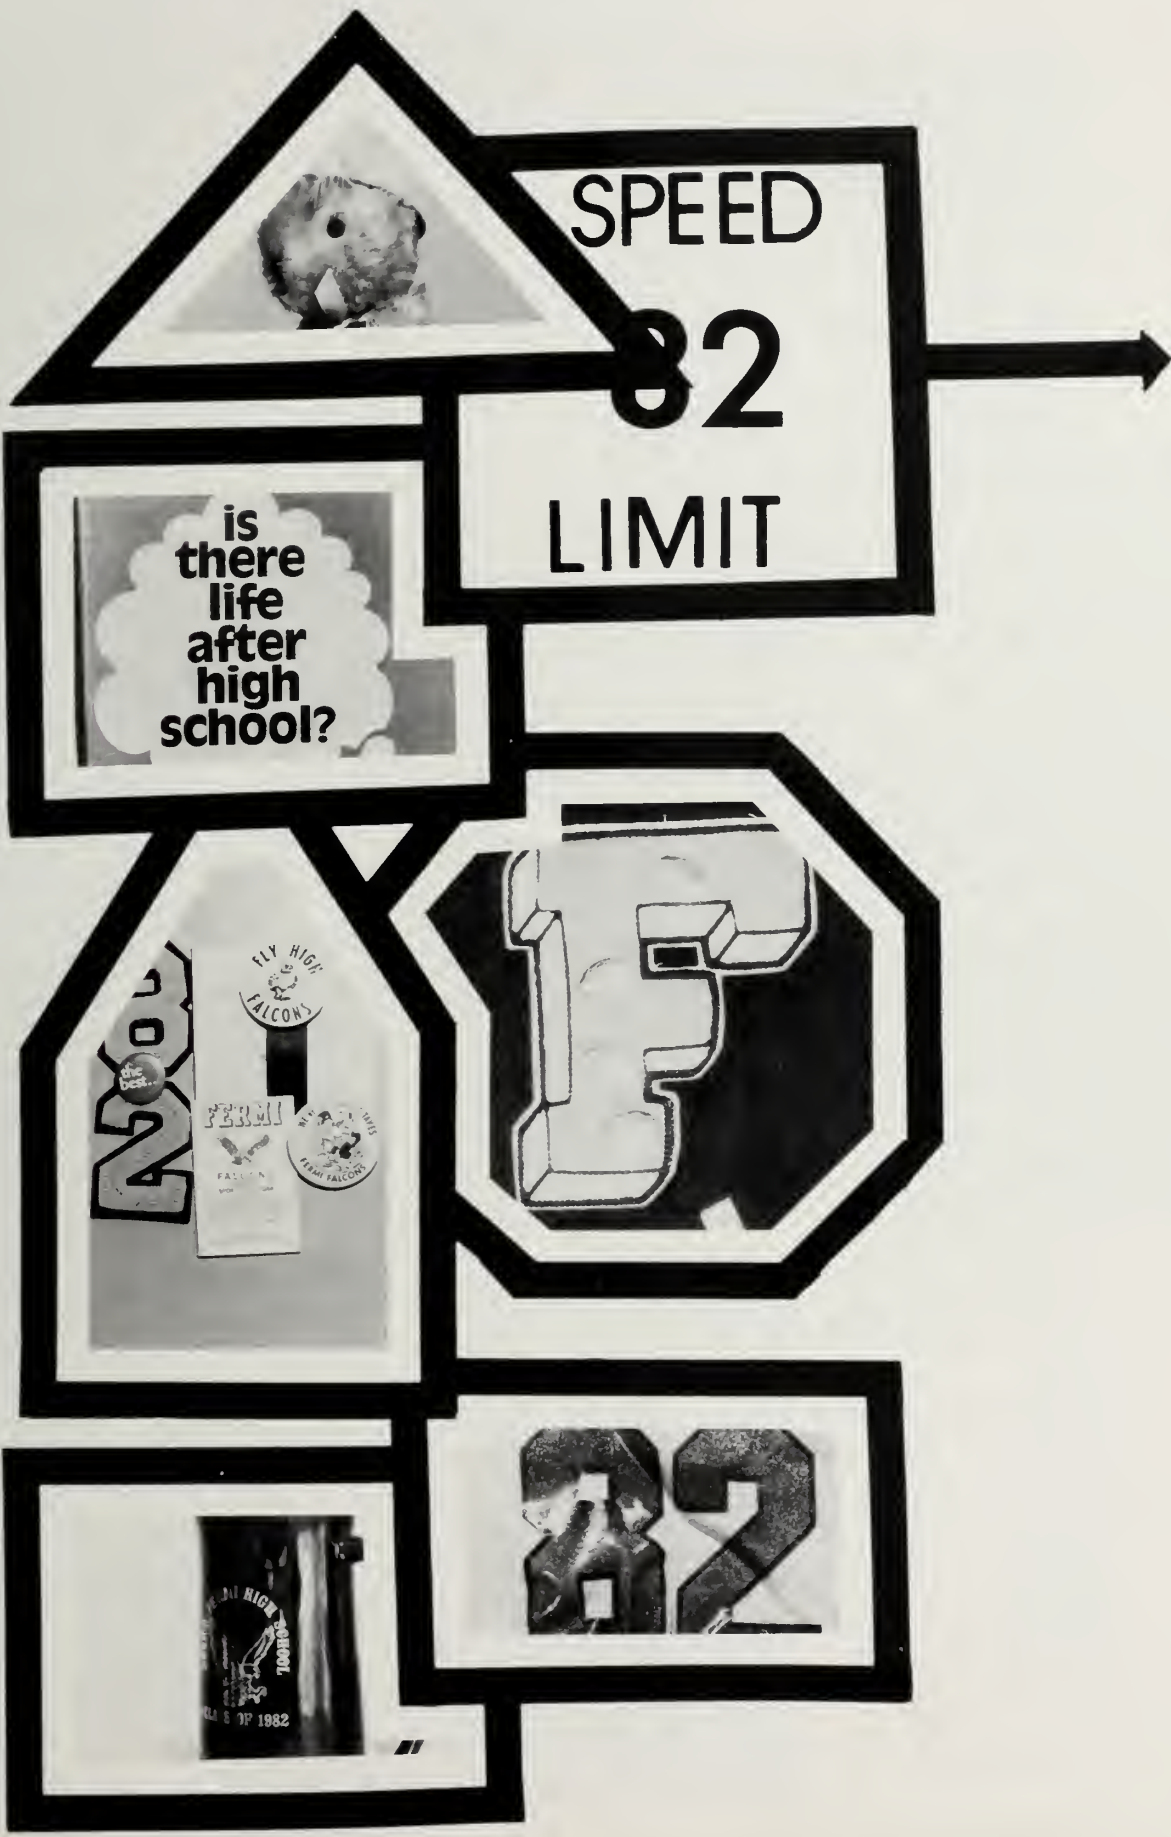

We remember Paul as a sensitive man, cognizant of the needs of students, his fellow faculty members, and the school in which he served. He always gave willingly of his time, energy, and expertise.

Paul had a reverence for life which few people could match. This was evident in his desire to care for the many plants and animals in the Science Department. He was particularly fascinated by the interrelationships found between form and function that living things possess.

We will miss his presence among us, and he will forever hold a special place in our memory of Fermi High School. His high standards will always encourage his students to achieve; and his love and concern will always enrich their lives.

1982 FAREWELL ADDRESS

Besides the family, school is the most familiar environment we have had. We have experienced many of the same happy times and sad times. In this way, there is a closeness between us all that makes us a family. We are all unique, yet there is a closeness that makes us a class.

When we came to Fermi just three short years ago, we were insecure and unfamiliar with our surroundings. We looked up to the seniors in awe. As juniors we were in the center of the school structure. We had gained more experience than we had as sophomores, but not earned the respect we would have as seniors. Now, as seniors, we are ready to graduate. We feel comfortable and confident in ourselves. We have reached our goal, which such a short time ago, seemed so far away.

Graduation is a day of great joy and accomplishment. We have spent over half our lives striving for this goal. After having left, we will miss our friends, but our memories will allow us to remain close.

Venturing forth into continuing new experiences, we will remember our days at Fermi High. We will remember the happiness, the sorrows, and the triumphs. The knowledge gained here will guide us along our paths into the future. Our class, the class of 1982, is part of a new generation whose members shall continue on to be the future leaders of this country.

FOOTBALL

The 1981 football season was a season of transition for the Fermi Falcons. After an exciting opening day victory over East Hartford, the team struggled to a 3 and 6 record. Additional victories came at the hands of Manchester, a 9 to 0 shutout, and in a very big victory against our traditional rival Enfield, on Thanksgiving Day. Despite this record and the disadvantages of having to learn completely new offensive and defensive systems without the benefit of spring practice, the team always displayed a positive attitude and constantly improved. The players, particularly the seniors, should be commended for their fine efforts this year. Hopefully the work and success that the team initiated this season will become the foundation for many more successful seasons in the future for Fermi Football.

SOCCER

Rewards may be measured in many ways — financial success, fame, or personal accomplishments to name a few. In our scheme of things, we sought personal accomplishment and succeeded. From this base of development, there are only good things to expect in the future.

This past season has been a most enjoyable experience. There were times when we were behind in a game and nobody felt down because of it. We matured as a team; a quality present in all superior teams.

Next season should be a continuation of all these positive accomplishments, and certainly, reason enough to look forward to more successful seasons.

VOLLEYBALL

The 1981-82 Girls' Volleyball team was one of Fermi's finest. Sixteen terrific players achieved a 6-12 record, Fermi's best Varsity and Junior Varsity so far! Laurie Shewokis and Lynne Smith were the most outstanding seniors and co-captains. They were CCIL all-stars and three year letter earners as well. They were aptly supported by Lori Duga, Ann Lee, and Nancy Murphy. The Varsity MVP was Laurie Shewokis and the Junior Varsity MVP was Nancy Ortiz. Also, supporting the team's efforts are up-and-coming underclassmen Sondra Overstrom, Lisa Maxwell, and Carol Jaworowski.

Congratulations on a job well done. I hope future players will be inspired by the talent displayed by this group! Good luck!

FIELD HOCKEY

This 1981 season was one of accomplishments and pride. The 6-6-3 league record is the best field hockey record since 1975. In qualifying for the CIAC State Tournament and compiling a 1-1 record, this 1981 team has established a new record for future teams to challenge.

All who played this year have endured extremes in weather, officiating techniques and more than their share of lumps, bumps and bruises. For both squads, there is much to be proud of and many memories that will long be remembered.

Outstanding examples of leadership came from captains Mary Baldyga and JoAnn Bugai. These seniors set the pace for the season, and, along with the rest of the seniors, have heightened the level of play and sportsmanship. Their individual talents will be a source of inspiration to the 1982 team efforts.

I feel fortunate to have coached such a dedicated, hard-working, mature and determined group of individuals. This 1981 season was filled with many firsts and I shall long remember it . . . and you . . . with a smile of fond memories.

This year's team broke Fermi records for most wins in a season and most shutouts over their opponents. The team finished fourth in a tough CCIL League and thirteenth in the State Sectional. John Gallagher qualified for the state meet after finishing a fine season as Fermi's top runner.

The top five did an excellent job this year making Fermi's future in cross country promising. Best of luck to the seniors, especially the girls, and our captains Jim Slattery, Jeff Drake, and Vinny Weseliza. Keep on running and remember the one point win over Enfield.

BASKETBALL

This year's Senior tri-captains Jim Slattery, Bill Provencher, and Tom Timion form the best nuclei of any CCIL team. Early season predictions from most sports people in the area have the Falcons listed as bonafide league contenders.

At the time of this writing, all three captains' shooting percentages were above 50% and each was scoring in double figures. Jim was leading the team in assists with 5.5+ per game. Tom is scoring at 21+ per game and Bill is rebounding at 12+ rebounds per game. John Pasini and Paul Rollins, senior forwards, have also contributed heavily toward the Falcon record of 5 consecutive wins and an overall record of five and two, (4 and 1 CCIL).

Underclassmen Chris Deni, Ed Tenero, and Walt Babut have also contributed to the early team successes.

A new six page booklet was produced to enhance the overall basketball program and increase crowd participation. The program booklet presents some of the 11 year team records and individual accomplishments.

This years' team is looking forward to establishing several new records, and participating in the CCIL and State Tournament.

Political Figure: President Reagan

Sport's Figure: Joe Montana

This year's events engraved many positive and negative memories in the mind's of Americans. Throughout the year, America witnessed many tragedies as well as successes; the current events sent the people of America on a spiritual, emotional and physical rollercoaster. Their strength, as a whole, would determine their will to strive on.

Unfortunately, many of the year's headlines told of unemployment, murder and inflation. October's news stories reported the assassination of Egyptian President Anwar Sadat and the attempts upon the lives of Pope John Paul II and President Ronald Reagan. The brutal slayings of Atlanta children was fortunately resolved with the trial, the conviction and the sentencing of Wayne Williams. The crash of the Air-Florida jet had a devastating impact on the nation, but the tragedy helped unite the country.

Entertainment provided Americans with an escape from the cold realities of daily life. Americans still enjoyed going out to the cinema as exemplified by the popularity and profits of this year's box office smashes. Some of the more successful movies were: *Raiders of the Lost Ark*, *Reds*, and *Stripes*. In addition to films, the 1981-82 sports events included the San Francisco 49ers Super Bowl victory, the summer long baseball strike, and the triumph of the Dodgers in the World Series. Steve Maher was honored as the first gold medal winner in a world champion ski race. Bjorn Borg was crushed by John McEnroe, the newly top-seeded tennis player in the World Cup. Hockey's Wayne Gretzky surpassed Phil Esposito's record of 76 goals in a single season.

Many successful events also provided an uplift to the spirit of America. The stability of gas prices, the launching of the space shuttle *Columbia*, and the Royal Wedding of England's Prince Charles and Lady Diane were celebrated occasions. While the Equal Rights Amendment was still pending ratification, Sandra Day O'Connor became the first woman ever to be appointed to the Supreme Court.

Although the celebrations of this year were few, they will certainly endure in the minds of Americans for years to come.

We, the 1982 Yearbook Crew, wish to extend our heartfelt gratitude to our foremen: Miss Monica de Haan, our advisor and foundation; Mr. Larry Grenier, our patient photographer; and Mr. Denny Galvin, our publishing representative. Their knowledge of the tools of their trades which they shared with us proved to be of immeasurable value. Their selfless dedication of time and energy made the construction of our yearbook possible. For your help and direction, we thank you.

P.S. Miss de Haan, we're sorry you got gray hairs and we know you don't do menial tasks!

Going to McDonald's® is almost as much a part of school as going to class. You've made us the place to meet, to talk, to have a good time, to celebrate your victories and help forget defeats.

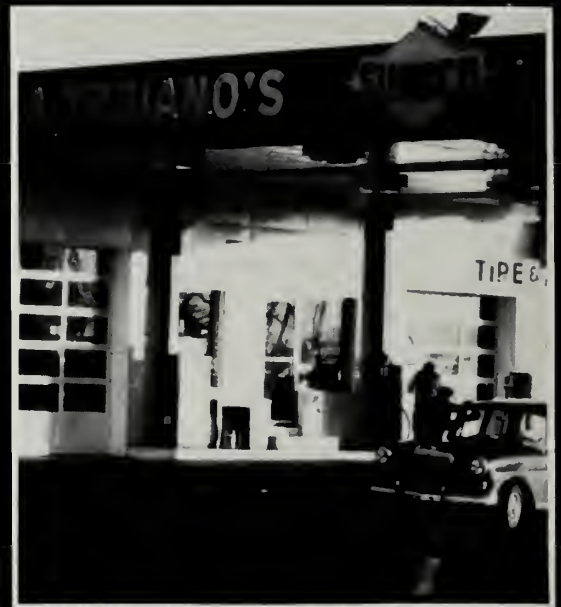

You've made McDonald's more than just another place to eat. And that's why, at McDonald's, we say...

You deserve a break today.
